

# Hanging Basket

Koszyczek

## Materials needed:

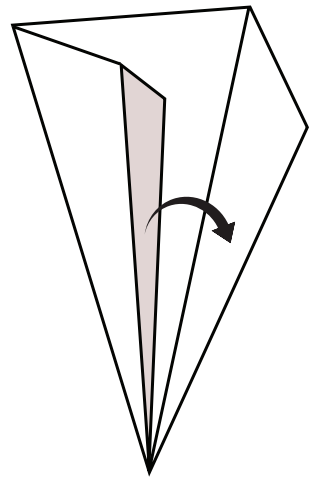

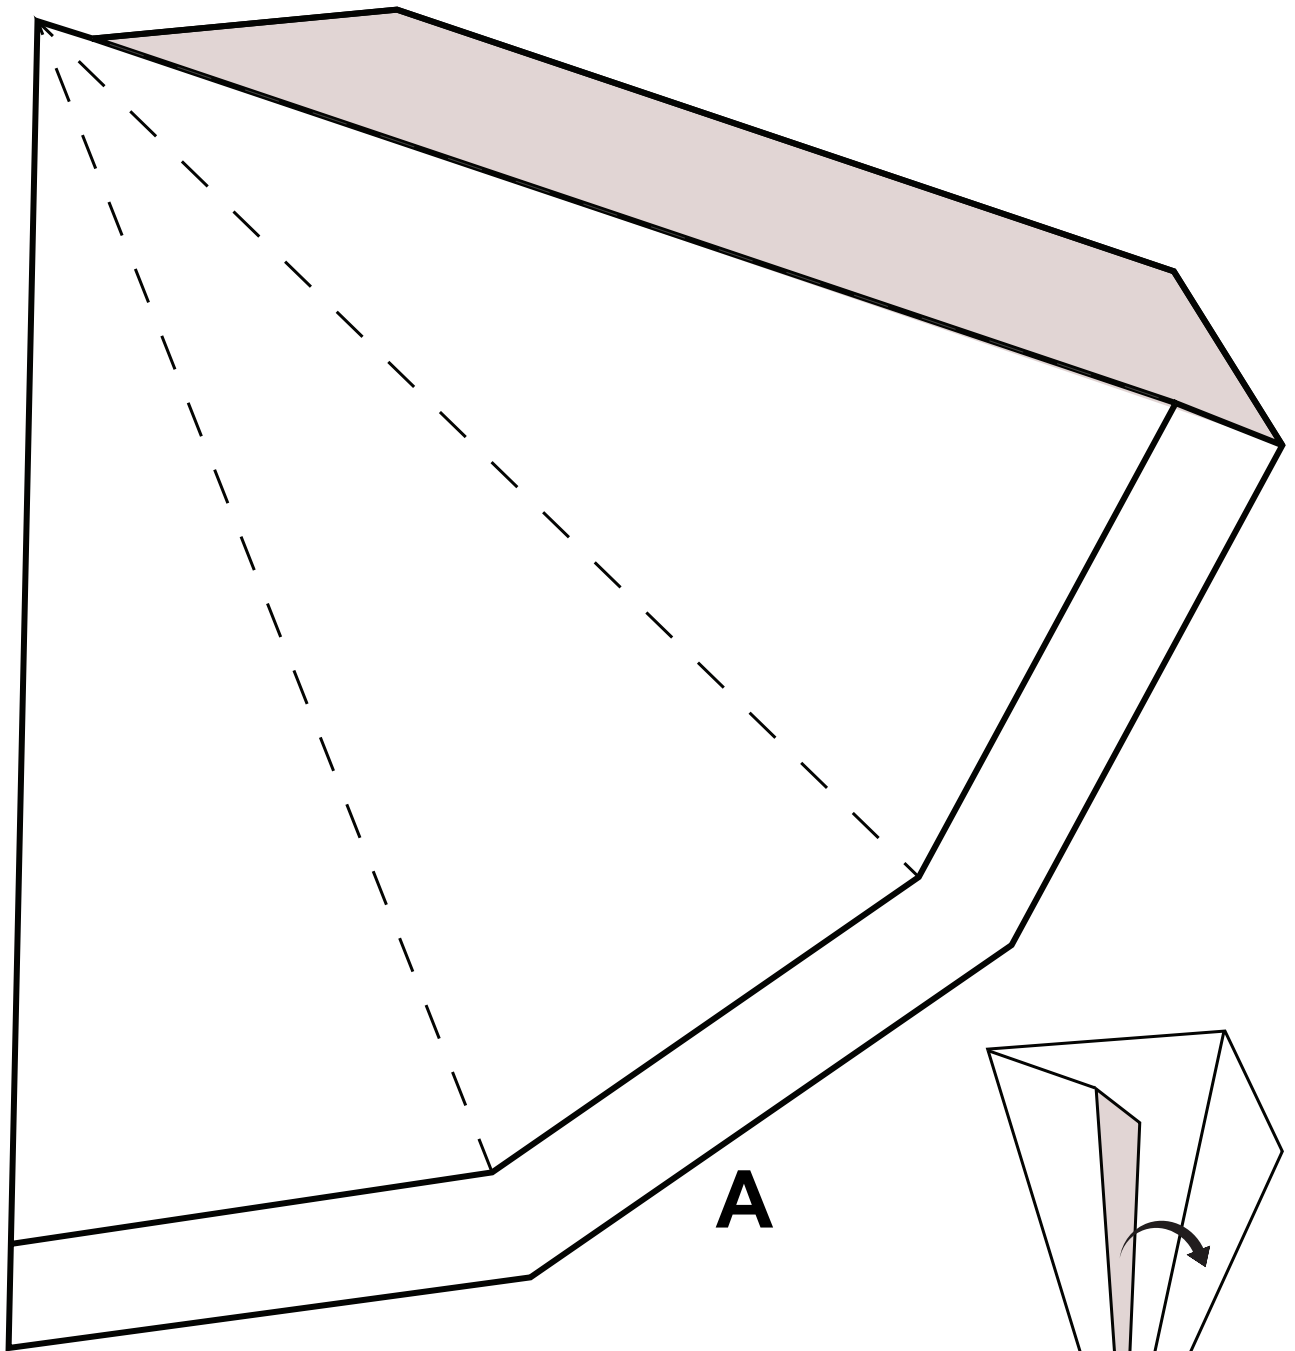

- Colored cardstock
- Scissors
- Glue
- Small artificial flowers or candy to fill baskets

Trace and cut pattern A for body of basket. Fold on dotted lines and glue tab under opposite edge. Baskets may have designs painted or pasted on, or any other creative ideas for decorating the outside. This is best done when the paper is flat, before the tab is glued.

Trace and cut strip B in similar or contrasting paper and glue to inside of basket at opposite sides to form handle. Tie string to top of handle for hanging on tree. Fill basket with flowers or candy.
